Training on Vermicompost production technology

ITANAGAR, Sep 18: Krishi Vigyan Kendra, Lohit conducted a training programme on "Vermicompost production technology" for farmers of Alubari village on Sept 14-15.

30 farmers were present in the training including the members of some SHGs of Alubari village.

In the first day Dr. P. K. Mallick, Programme Coordinator, KVK Lohit gave a brief description about the activities of the KVK. He discussed about the importance of organic manures including Vermicomposting for increasing productivity.

Debasish Borah, SMS (Agronomy) thoroughly discussed about the concept of organic manures particularly vermicompost,

its importance, materials required, cost of production. He also discussed about the detailed procedure of vermicompost production

and utilization of available crop residue and bio waste for productive purpose. In the second day practical demonstration was ar-

ranged and the farmers took active part in the practical session. Discussion on farmers' problems were also done.
