KVK conducts training

ITANAGAR, May 28: Krishi Vigyan Kendra (KVK), Lohit conducted two training programmes on "Integrated Nutrient Management of Maize" and "Integrated Disease Management of maize" for the farmers of Chongham, Alubari, Namliang, Momong in collaboration with Departments of Agriculture and Horticulture, Chongkham recently.

Discussions were held on problems and prospects of rice cultivation, the concept of INM and its impor-

tance for increasing production and sustainable development during the training programmes. Discussions were also held on types of manures and fertilizers, their judicious utilization in an integrated manner. The details of INM in maize were explained to the farmers by subject matter specialists.

It also discussed about integrated disease management practices in maize, disease and pests of maize and its control measures and about the common prob-

lems of the farmers.

Intercropping in maize with vegetables and cultivation practices of commonly grown vegetables in the area were also thoroughly explained by the horticulture development officer.

Seeds of maize were distributed to the farmers by ADO Chongkham and seeds of vegetables were provided to the farmers by HDO Chongkham.

The training was conducted in the ADO office and a total of 30 farmers attended it.
