KVK hosts training on scientific cultivation of mustard

ITANAGAR, Sep 23: Krishi Vigyan Kendra, Lohit district, Momong under NRC on Yak (ICAR), Arunachal Pradesh conducted a training programme on 'Scientific cultivation practices of Mustard' for the farmers of Kumari Khampti village on September 20 last.

As many as 52 participants including the ASM, GB of the village were present in the training. Addressing the trainees, Debasish Borah, SMS (Agronomy) spoke on the scientific cultivation of mustard by adopting improvised tools and manual form of implements together with INM and IPM practices. Visual presentation of modern farm implements, disease and pests were also made which attracted the farmers to a great extent.

Finally discussion on different problems faced by farmers in their ginger, rice, potato crops were also done. The farmers, who actively participated in the training, said that they will practice the system from the coming rabi season.
